

# Working With Machines – From Reel to Real

- The concepts which were envisioned in the past and enacted in cinema have now evolved in a reality which we experience every day
- The five fields that have been the best for AI in these years and is steadily thriving.
  1. Healthcare
  2. Automotive
  3. Gaming
  4. Cloud Services
  5. HR Recruiting and Marketing

These industries have started evolving new Business Models using AI which is discussed in [this article](#).
